

# 2010 DECT handset

Supplementary information  
Telephony & cordless

**Designed and optimised as a lightweight, entry level DECT handset, the 2010 allows you to be contacted anywhere, anytime, while mobile around the workplace.**

Being able to manage on the move is essential in today's competitive business environment. Receiving and making calls while mobile improves communication with customers and enables efficiency in day-to-day management.

The 2010 DECT handset is ideal for an office environment, primarily within the SMB segment, and provides the basic features needed in order to benefit from being wireless and mobile.

## 2010 features

The 2010 has a modern, attractive design with entry level features including:

- basic wireless telephony functions
- small and lightweight
- simple and easy to use
- make and receive calls
- suited for carpeted or soft floor working environments (note: not suited to hard floors)
- suited to workers in administrative environments
- easy to install, low cost of entry for customers
- improves mobility, responsiveness and productivity
- 13 menu languages (English, French, Spanish, Italian, German, Danish, Portuguese, Dutch, Polish, Swedish, Turkish, Russian and Greek)
- can be used with Multitone wireless servers 300, 6000, 8000, CS100 and CS600-IPL
