

# 610d DECT handset

Supplementary information  
Telephony & cordless

**The 610d cordless handset allows you to be contacted anywhere, anytime, while mobile around your workplace. Managing on the move becomes a reality as you control your time and become more efficient. No more missed calls, post it notes or call backs to frustrated callers.**

The 610d DECT handset includes features such as hands-free mode, a headset option, a backlit illuminated display and keypad, seven text line display with adjustable contrast, as well as the ability to administer the local telephone book. A belt clip is also fitted as standard.

The 610d DECT handset offers the user all of the system functionality of the Access-IP if the applications have been licensed. Missed calls, voicemail and messages are all indicated by notifications on the telephone's front screen. Simply step through the interactive menu to listen to voicemail and return missed calls or messages. The 610d DECT handset can also store up to 200 contacts with five possible entries; office, private and mobile number as well as email address and ringtone assignment (if supported by the PABX).

#### Key features:

- hands-free - the 610d DECT handset allows you to activate the personal hands-free speech function so you are able to carry on with the job in hand
- automatic key lock - becomes active after a certain length of time or can also be manually initiated by the user when required to ensure no more accidental calls
- 44 polyphonic and 8 normal ringtones with automatic volume control can be assigned for internal and external calls as well as messages, alarm calls and emergency calls (if supported by the PABX)
- automatic answer when removed from charger
- SOS call for help

#### Accessories

- Belt clip: rotary
- Lanyard attachment

#### Language options

- 610d offers the user 12 language options: English, German, French, Italian, Spanish, Russian, Dutch, Finnish, Danish, Swedish, Portuguese and Norwegian
